(11) Opportunities and Threats:

Opportunities

Renewable power Generation has assumed increased significance considering the depletion of Conventional energy sources like coal, oil etc, reserves of which are fast dwindling and the stringent Environment pollution norms to minimise the damage to Environment. Wind power generation capacity in India has significantly increased in recent years. As of 30 November 2021, the total installed wind power capacity was 40 GW, the fourth largest installed wind power capacity in the world. Wind power capacity is mainly spread across the Southern, Western and Northern regions. India is expected to install nearly 20.2 GW of wind power capacity between 2021-2025. Wind power age represents 10% of India's absolute introduced power limit.

Renewable Power obligation has become mandatory for all Power Off takers and Renewable power is given the priority or Must Run status. Being Green Power they get the CDM benefits also. With advancement in Technology more efficient Wind Turbines are developed and the reduction in the Capital cost has made the Wind Power Generation more attractive. Gujarat is one of the states with higher wind potential in India and encourages Renewable power Generation with long term PPA's. GP

Wind Jangi has got this locational advantage. The WTG's are Vestas make who are pioneers in developing this Technology. The Operation & Maintenance of these WTG's are done by OEM thus enduring high Availability of the machines.

Threats

- Unpredictable wind patterns.
- Tariff structure is uniform and over the period of Power Purchase Agreement but costs are subjected to escalation.
- Wake effect due to commissioning of new wind farms in nearby areas.
- Accidents caused by natural disasters, like floods during monsoon, lightning strike and earthquakes.
- COVID Pandemic.

(12) Material Changes and Commitment if any affecting the Financial Position:

There are no material changes and commitment affecting the financial position of the Company occurred between the end of the financial year to which their financial statements relate and the date of the report.

(13) Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo:

The information pertaining to continuous improvements and modifications works carried out during the financial year 2021 as required under Section 134 (3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014 is as follows:

SCADA Server GP Wind SCADA sever upgraded from DL 380 Generation 5 to DL 380 Generation 10.- Considering the obsolescence and lack of OEM support for Hardware & Software this upgradation increases the Reliability of the system. Old system was having internal hard disk based backup only, which leads to data loss incase of any crashes in Server. However the upgraded system is with VMWare platform and external tape backup.

(14) Risk Management:

The Genting Group has comprehensive Risk Management Policy. The potential risks have been identified and effective control measures have been taken to prevent the occurrence and mitigate the impact.
